## NEWS RELEASE

### FANCAMP EXPLORATIONS - McFAULD'S PROPERTY

October 17, 2007

TSX Trading Symbol: FNC  
S.E.C. Exemption: 12(g)3-2(b)

To further clarify the Company's descriptive remarks in its October 11, 2007 release regarding the 2003 airborne magnetic and TDEM survey carried out over the McFauld's Lake area, and the Company's property in particular, attached are two original maps from this survey, a calculated gradient magnetic map and the TDEM anomaly profiles along the same lines.

The conductor over the Noront discovery can be seen immediately northwest of Fancamp's claim 3012258, with additional conductors visible to the south on the claim itself. These conductors, like the Noront conductor, are associated with strong magnetic anomalies.

#### ON BEHALF OF THE BOARD

"Peter H. Smith", Ph.D., P.Eng., President
